## **Open Letter To All State Governors In the United States of America**

Subject: Proposed Program to Assist Citizens Victimized by Illegal Aliens

Dear State Governor:

Violent illegal alien crime, especially crimes resulting in the deaths of American citizens, are like none other in our system of legal justice. In every case, the perpetrator who had gained access to our loved ones was illegally in the country; aided by the failure of the government of the United States to protect our nation's border, enforce current laws, and legislate for citizens.

Based on these unique circumstances, the perpetrator was in our country illegally, special measures must be implemented immediately. We have initiated a call-to-action for all State Governors to aid citizen families by instituting a fully funded program called: **Citizens of Illegal Alien Crime Services ("CIACS")**.

The program would require the state and local governments to coordinate with appropriate social and legal agencies and pro-family non-profit corporations to work with victims' families in order to secure a favorable and fair outcome. In each state across the country, we propose CIACS to be established and administered through each state's Office of the Attorney General and to include, but not limited to, the following services:

- Criminal Justice Support, including informing victim family of their rights, court accompaniment, explanation of legal procedures, etc.

PO Box 440548 Houston Texas 77244-0548

# AMERICA FIRST Latinos

An initiative of The Remembrance Project

- Updates on the status of the criminal or civil case
- Whereabouts of the alleged illegal alien killer
- Citizen Victim Advocacy, including compensation information, application assistance, social services referrals, etc.
- Legal representation for restitution from the alleged killer (including corporations and companies) deemed legally liable
- Legislative Advocacy for citizens' rights to guarantee transparency and truth during the judicial process

This matter is urgent and should be handled prior to the end of the current legislative session. Our families are crying out for help, and America is waiting for you to act. As your state's governor will you help Americans by creating a "Citizens of Illegal Alien Crime Services" in your state?

Sincerely,  
**America First  
Latinos**

About Us: America First Latinos was created to prove, for once and for all, that the vast majority of Latino citizens are solidly behind the U.S. Constitution and a secured national border. Because this fact is falsely represented by a biased media, we have come together to proclaim that most U.S. Latinos are unified in these matters. We also agree that it is unacceptable for local, state and national public servants to assume that they speak for all U.S. Latinos, a false and despicable narrative, and an insult to the millions of intelligent and proud American Latinos across the nation. We demand that they cease and desist immediately from this racist stereotyping. We also call for the immediate resignation of all public servants who, through their authorship of bills, voting records and/or public speech, have placed other countries and non-citizens ahead of our country and our citizens.
