is a great health center for queer youth. [www.jrli.org](http://www.jrli.org)

Message to the readers!

## Hey Queer Boys!

Welcome to queer life in the 21st Century!

Is this a great time to be gay or what? We are faced with important challenges every day like the right to marry, homophobia, coming out, STDs and HIV/AIDS, but queers have never enjoyed more visibility and acceptance than today.

The Boston area is a good place to be young and queer. The city is fairly tolerant with a diverse and visible queer community. Queers are teachers, policemen, UPS drivers, waiters, politicians, doctors, artists, you name it. We have strong gay community institutions and lots of services for queer youth.

## Your Sexual Rights & Responsibilities

- You have the right to enjoy sex without shame or stigma!
- You have the right to safer sex materials that speak to your desires!
- You have the right to take action for your community! Be heard, you are the expert!
